

ATLANTIC SALMON EXTRACT PASTE

Atlantic Salmon Extract Paste is produced from pure meat and cutoffs of fresh Norwegian Salmon without fishbones and guts. The product is manufactured in a controlled enzymatic process and refined by microfiltration and evaporation to a paste form with 70% dry matter. Atlantic Salmon Extract Paste is totally soluble in water and contains a mix of water soluble proteins, peptides and free amino acids. The extract is 100% natural with no additives.

STORAGE AND SHELF LIFE

Atlantic Salmon Extract has a shelf life of 24 months when stored in cold place.

PACKAGING

Atlantic Salmon Extract is packed in metallic or PP (polypropylene) cans, 25 kilograms net weight. 22 cans per pallet, i.e. 550kg net weight or in plastic containers of 1200 kg net weight.

APPLICATION AND DOSAGES

Atlantic Salmon Extract is in diluted form, excellent for quick and dense growth of microorganisms in industrial fermentation. It may also be used as basis for blended flavours, reaction flavours and in pet food.

CHEMICAL ANALYSIS

Chemical Parameter	Average
Dry Matter	60%±3
Protein (Nx6.25)	30%±3
Lipid (of DM)	< 1%
Ash	< 25%
Salt (NaCl)	3%±2

MICROBIOLOGICAL STANDARDS

Micro Organism (per g of product)	Target	Max	Method of Analysis
Total number of bacteria (aerobic)	< 5000	< 50000	NCFA 146
Coliform bacteria (37°C)	< 10	< 100	NCFA 147
Escherichia Coli (44 °C)	neg. in 10g	< 10	NCFA 147
Salmonella	–	absent in 25g	AOAC 99138, NCFA 71

The production is approved by the Norwegian Food Safety Authorities according to FDA / HACCP.
