

Beta Glucan AC

Beta Glucan AC consists in big amounts of insulated, free (1,3)-(1,6)- β -D-Glucans of the walls of brewers yeast (*Saccharomyces cerevisiae*) or Oyster Mushroom (*Pleurotes ostreatus*).

It is a fine ground beige coloured powder with a neutral smell and taste. Beta Glucans are said to have immune-stimulating effects on humans and animals.

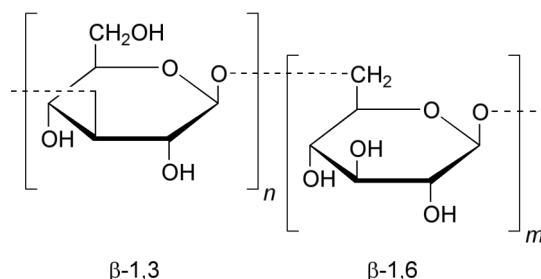

Beta Glucan concentration in Powders

ex *Saccharomyces cerevisiae*: 25, 70, or 85 %

ex *Pleurotus ostreatus*: > 90 %

Storage and Shelf Life

Beta Glucan AC has a shelf life of 24 months, stored unopened at room temperature under dry conditions.

Packaging

Beta Glucan AC is packed in bags with PE-inliner or Big Bag.
